Hi (insert first name),

Now that you know what makes people buy a product or service, let me give you 5 powerful reasons why Affiliate Marketing is the greatest solution for you:

**Reason #1: Low Costs!**

Do you have \$2,000+ to outsource all this? It can be very expensive to hire a content creator just for you and your business.

Affiliate Products are the greatest solution to avoid all of that product creation investment. You don't have to spend a single dime creating a product because Product Owners have already done so. If you opt to promote affiliate products, your cost will be concentrated only on advertising.

### **Reason #2: Time Saving!**

Do you have the countless hours that it takes to "create" the perfect product or service, or the awesome content needed to "sell" your product or service like a PRO?

Product Owners have saved you a lot of time and effort on niche research, writing, video creation, sales page creation, graphic creation, etc. because everything is already created. And promoting a quality product is the best way to guarantee earnings.

### **Reason #3: Guaranteed Talent!**

Are you a really good content creator? I ask you because there are a lot of really talented people who know how things work regarding product and content creation, so you really need to expect strong competition on this.

A trained and proficient content creator can create something that is engaging, easy to read, and articulate. When you promote high quality affiliate products, you are promoting well-written content, from highly talented people in the language of your choice. There is no better solution than that.

### **Reason #4: High Commissions!**

Guess who decides how much money you are going to make? You! Yes, YOU decide how much money you want to make by deciding what product you are going to promote. Most of the affiliate products offer up to 75% of the price of the product as a commission for you as an affiliate marketer, and others offer 50% commission. That's awesome right there.

If you decide to advertise a \$2,000 Internet Marketing Training (which people really buy, no joking) that means you could be getting a really nice commission of \$1,000 for just 1 sale generated.

Imagine having the ability to make only 5 sales for every launch of those kinds of affiliate products, which is absolutely realistic. How many products like that could be launched on a monthly basis over the web?

### **Reason #5: Extremely Hot Topic!**

Millions of dollars are now being invested in Affiliate Marketing materials, and dozens of high quality Product Owners launch new products all the time. Every one of those product launchers know the best, most efficient way to make their sales is with affiliate marketers like you and me.

Affiliate Marketing really has hit the market to stay.

So, the question isn't whether we should do Affiliate Marketing! The question is how well can we do it? In this Highly Effective Affiliate Marketing Training System, you will learn exactly how to do it.
