Hi (insert first name),

Do you really know why Affiliate Marketing is the greatest solution for you to generate online profits?

Here you have 5 really powerful reasons:

**Reason #1: Low Costs!** Do you have \$2,000+ to outsource all this? It can be very expensive to hire a content creator just for you and your business. Affiliate Product owners have spent that money for you already. You just need to advertise your affiliate link and wait for the commissions to roll into your Bank account.

**Reason #2: Time Saving!** Do you have the countless hours that it takes to "create" the perfect product or service, or the awesome content needed to "sell" your product or service like a PRO? Affiliate Product owners have spent all that time for you too.

**Reason #3: Guaranteed Talent!** Are you a really good content creator? I ask you because there are a lot of really talented people who know how things work regarding product and content creation, so you really need to expect strong competition on this. Affiliate Product owners want to make money same like you, so they have to make sure they will offer the greatest quality possible because it's their product anyway.

**Reason #4: High Commissions!** Guess who decides how much money you are going to make? You! Yes, YOU decide how much money you want to make by deciding what product you are going to promote. Most of the affiliate products offer up to 75% of the price of the product as a commission for you as an affiliate marketer, and others offer 50% commission. That's awesome right there.

**Reason #5: Extremely Hot Topic!** Millions of dollars are now being invested in Affiliate Marketing materials, and dozens of high quality Product Owners launch new products all the time. Every one of those product launchers know the best, most efficient way to make their sales is with affiliate marketers like you and me.

Affiliate Marketing really has hit the market to stay.
