Hi there fellow Internet marketer.

Let me ask you a few very important questions...

What makes people buy a product or a service?

- A high converting sales invitation
- A step-by-step, easy to follow system or easy to use service
- The latest information on the subject
- The great benefits people may receive
- The testimonials from people that are already getting results
- Killer graphics
- Attractive bonuses
- Low price
- High Quality Support
- And of course the Money-Back Guarantee

Awesome, you now know what makes people buy a product! Now, let me ask you another question:

Do you own a product or a service like that?

If you own a product like that, it means you have spent a few grand creating it. It means you are making some great money over the web, and it means there is no need for you to keep reading all this.

But it is more likely that you are among the majority of people who really want to make some decent money over the web but don't have the time and money to create the perfect product or service and finally reaching your financial dream of working through the internet.

If you seriously want to get the results you desire and deserve, pay attention to what I'm about to tell you in this step by step training.

Now that you know what makes people buy a product or service, let me give you 5 powerful reasons why Affiliate Marketing is the greatest solution for you:

Reason #1: Low Costs!

Do you have \$2,000+ to outsource all this? It can be very expensive to hire a content creator just for you and your business.

A quality content creator who knows their way around the block is going to charge anywhere from \$20 to \$50 per hour. That can get expensive quickly. What about graphic designers and software developers? They cost even more!

Affiliate Products are the greatest solution to avoid all of that product creation investment. You don't have to spend a single dime creating a product because Product Owners have already done so. If you opt to promote affiliate products, your cost will be concentrated only on advertising.

Reason #2: Time Saving!

Do you have the countless hours that it takes to "create" the perfect product or service, or the awesome content needed to "sell" your product or service like a PRO?

Let me tell you - it takes a lot of hours and weeks to create a high quality product or service along with marketing material that can stand out from the crowd.

Product Owners have saved you a lot of time and effort on niche research, writing, video creation, sales page creation, graphic creation, etc. because everything is already created. And promoting a quality product is the best way to guarantee earnings.

Reason #3: Guaranteed Talent!

Are you a really good content creator? I ask you because there are a lot of really talented people who know how things work regarding product and content creation, so you really need to expect strong competition on this.

It's not just the descriptions that count; well-crafted words are essential to your success. I do know that creating a truly high quality product is not easy at all:

- ✓ You need to be extremely good at writing content, mastering a step-by-step proven system that can bring attractive results to the buyer.
- ✓ You need to be able to create a great and extremely high converting sales pages
- ✓ You need to be able to record live videos and have the ability to talk over a mic. with a nice voice.
- ✓ And of course you need to be really good at graphics. Let me tell you, there is a lot of competition in all of this.

Let's face it, not everyone can write well. We all have different talents, and even the shrewdest businessman may not necessarily have the ability to write smoothly and intelligently. Add to that the fact that we are now a global market.

A man in Germany or Chile or Quebec may want to sell content to customers residing in the US or England. If your content sounds stuffy or awkward, it will not sell well, so you really need top-quality content.

A trained and proficient content creator can create something that is engaging, easy to read, and articulate. When you promote high quality affiliate products, you are promoting well-written content, from highly talented people in the language of your choice. There is no better solution than that.

Reason #4: High Commissions!

Guess who decides how much money you are going to make? You! Yes, YOU decide how much money you want to make by deciding what product you are going to promote. Most of the affiliate products offer up to 75% of the price of the product as a commission for you as an affiliate marketer, and others offer 50% commission. That's awesome right there.

If you decide to advertise a \$2,000 Internet Marketing Training (which people really buy, no joking) that means you could be getting a really nice commission of \$1,000 for just 1 sale generated.

Imagine having the ability to make only 5 sales for every launch of those kinds of affiliate products, which is absolutely realistic. How many products like that could be launched on a monthly basis over the web?

Reason #5: Extremely Hot Topic!

Millions of dollars are now being invested in Affiliate Marketing materials, and dozens of high quality Product Owners launch new products all the time. Every one of those product launchers know the best, most efficient way to make their sales is with affiliate marketers like you and me.
