

WP Ebook Master USER'S GUIDE

WP Ebook Master Documentation

WP Ebook Master is a WordPress plugin developed to enable ebook creation function on your site. It allows you the flexibility to create contents out of the posts you have already created or you can create one from scratch. Furthermore, it offers call to action content to boost user interaction even on the produced ebook.

The lite version of the plugin is missing the following features:

- Import Posts
- Page Type
- Layout
- Background Image
- Fonts

How to Use WP Ebook Master

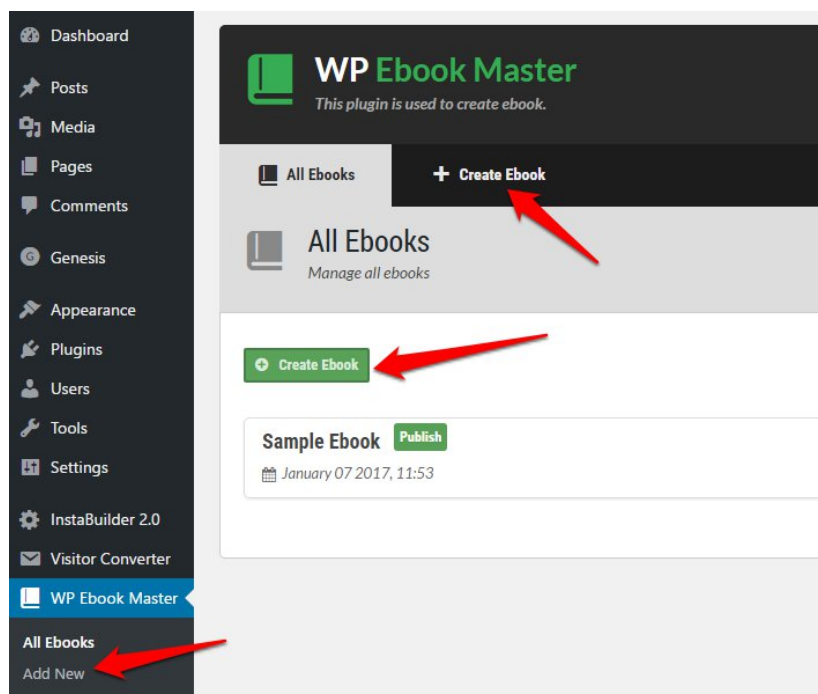

This guide assumes that you have already logged in to your WordPress admin area and that you have already installed and activated **WP Ebook Master**.

How to Create an Ebook

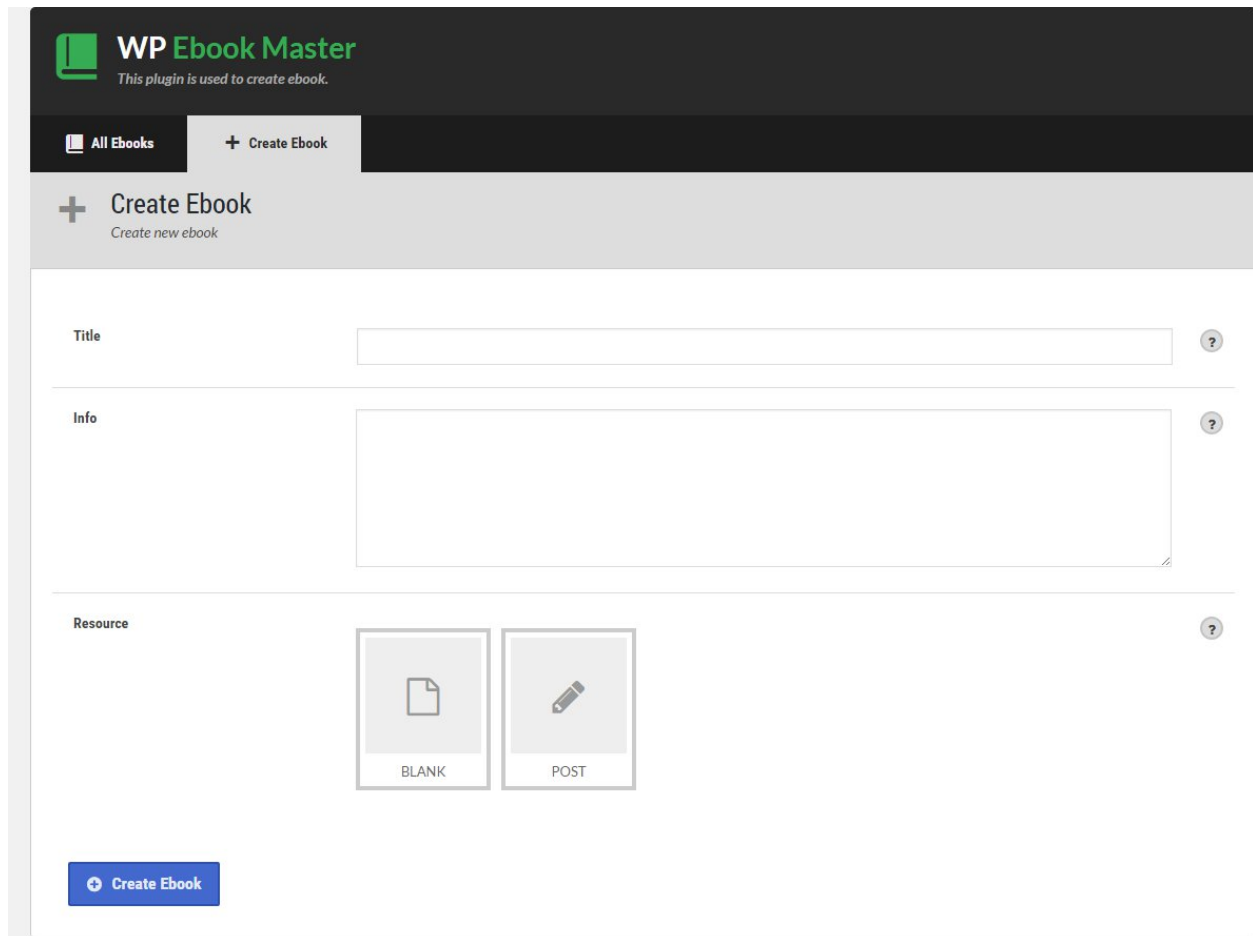

1. To create an ebook, hover your cursor over the WP Ebook Master menu item from the left admin panel and click Add New.

2. Alternatively, you can click the menu item directly to access the plugin's main page. This should be where all ebooks created are listed. Click the Create Ebook button or menu item.

3. Supply all the fields on the page.

The screenshot shows the 'WP Ebook Master' plugin interface. At the top, there's a dark header with the plugin name and a sub-header 'This plugin is used to create ebook.'. Below this is a navigation bar with 'All Ebooks' and '+ Create Ebook' tabs. The main section is titled '+ Create Ebook' with the subtitle 'Create new ebook'. It contains three form fields: 'Title' (a single-line text input), 'Info' (a large multi-line text area), and 'Resource' (a selection area with two options: 'BLANK' with a document icon and 'POST' with a pencil icon). Each field has a help icon (a question mark in a circle) to its right. At the bottom left, there is a blue button labeled '+ Create Ebook'.

- **Title.** Enter a unique and/or descriptive title that can help you recognize the ebook from the rest when management is needed.
- **Info.** Supply this field with details and information regarding the ebook to help manage the ebooks.
- **Resource.** This option will only be available on full version as it prompts you to select to create an ebook from a blank canvass or import posts that were already created. But if the active plugin is the lite version, blank canvass is automatically selected.

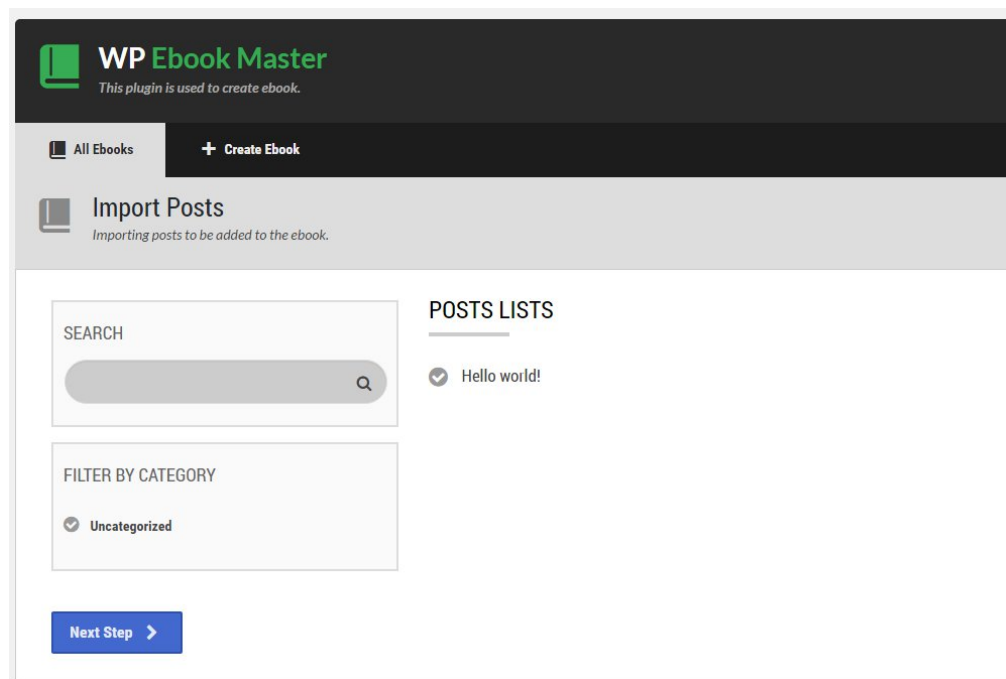

4. Once all the necessary information has been provided, click the **Create Ebook** button.

5. Start building the pages and adding contents on the ebook.

Importing Posts as Pages on the Ebook

Note: This is only applicable on the full version of the plugin. This part of the guide assumes that you have selected **Posts** as resource in the initial ebook creation settings.

1. A page the same as with the following screenshot should be available.

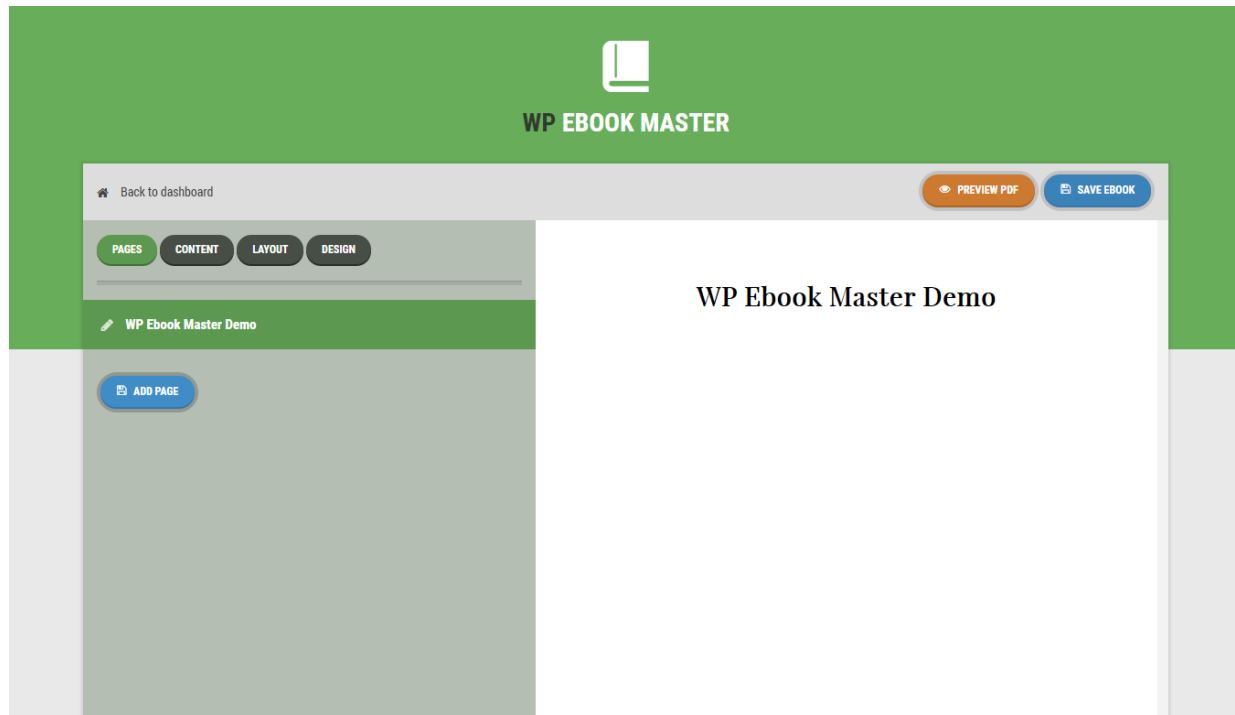

- **Search.** Enter a keyword that would filter out the list of posts you would like to import.
 - **Filter by Category.** Tick the category that you would only like the posts to show.
 - **Posts Lists.** This section displays all the posts on the site and/or based on the search results and/or category filters applied.
2. To add a post, simply click on the title of the post listed under the **Posts Lists** section. Posts to be added should have the checkmark beside it colored blue.

3. Once you have decided on which posts to import as pages of the ebook, click the **Next Step** button.

Adding and Managing Ebook Contents

1. Once you are done providing the basic information for the ebook, you should now be redirected to the ebook editor that looks like the following screenshot.

- **Back to Dashboard.** This link takes you back to the WordPress admin dashboard.
- **Preview PDF.** This button opens a new tab that previews the look of the created ebook.
- **Save Ebook.** Saves the changes you have made on the ebook.
- **Pages.** This menu item displays the option to edit the main ebook page and add and manage the pages on the ebook.
- **Content.** This menu item is where you are going to add the contents on the page added on the ebook.
- **Layout.** This menu item helps you define the layout of the ebook page.
- **Design.** This menu item allows you to customize the look and feel of the ebook page.

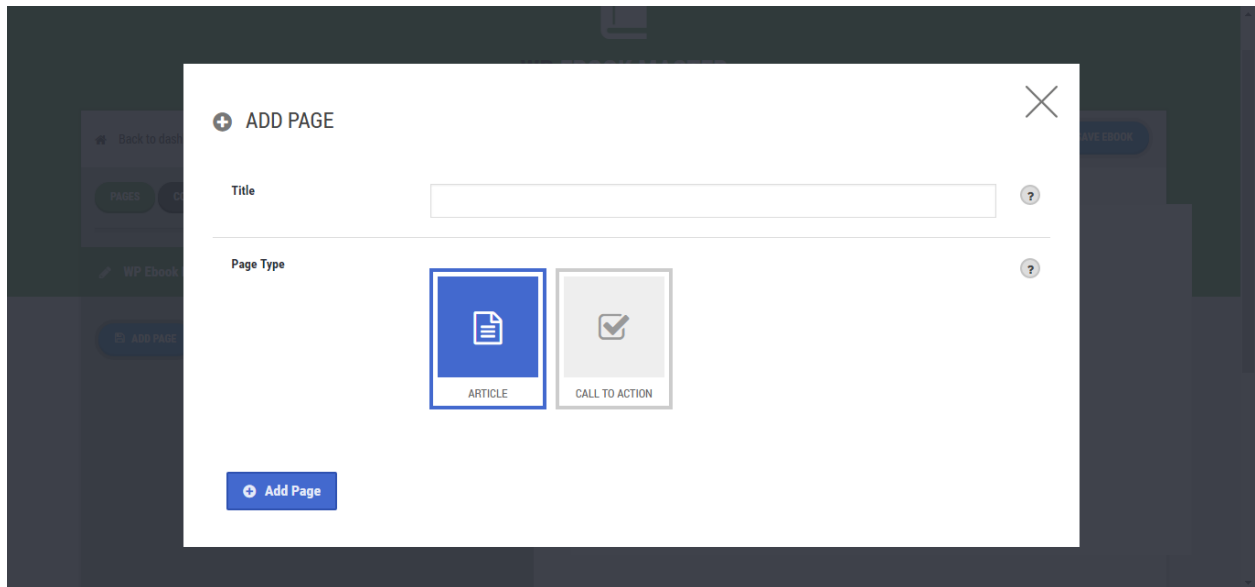

2. To edit the cover page of the ebook, simply click the title of the book being created to open up the content section and supply or edit the fields as desired.

The screenshot displays the 'WP EBOOK MASTER' interface. At the top, there is a green header with a book icon and the text 'WP EBOOK MASTER'. Below this, a navigation bar includes a 'Back to dashboard' link, a 'PREVIEW PDF' button, and a 'SAVE EBOOK' button. The main editing area is divided into two sections. On the left, a sidebar contains tabs for 'PAGES', 'CONTENT' (which is active), 'LAYOUT', and 'DESIGN'. Under the 'CONTENT' tab, there are three main sections: 'Title' with a text input field containing 'WP Ebook Master Demo'; 'Summary' with a rich text editor containing a paragraph placeholder 'P'; and 'Main Image' and 'Logo' sections, each with a 'No image' placeholder and a 'Select Image' button. A 'SAVE CHANGE' button is located at the bottom of the sidebar. The right section of the interface shows a large white area with the text 'WP Ebook Master Demo' centered at the top.

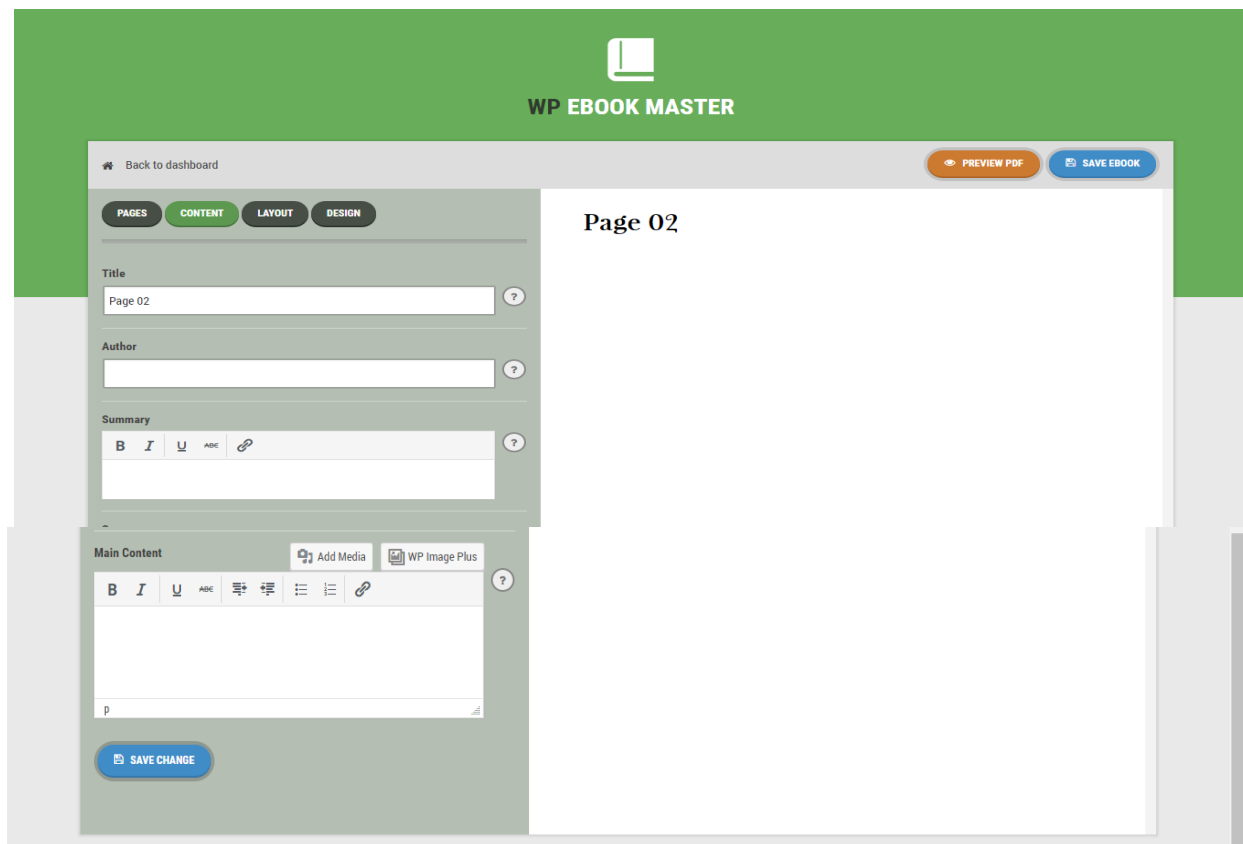

- **Title.** The title of the cover page of the ebook.
- **Summary.** The summary of the contents or any relevant information of the ebook.
- **Main Image.** Click the **Select Image** button to upload the main image of your ebook's cover page from your computer or use any of those that are available in the media library.
- **Logo.** Click the **Select Image** button to upload your logo from your computer or from the media library it has been previously

uploaded. The logo will be displayed on the top most part of the cover page.

3. Once the desired changes to the cover page is done, click the **Save Changes** button.
4. Click the **Add Page** button to add new pages on the ebook.
5. This should open up a popup that similar to the following image:

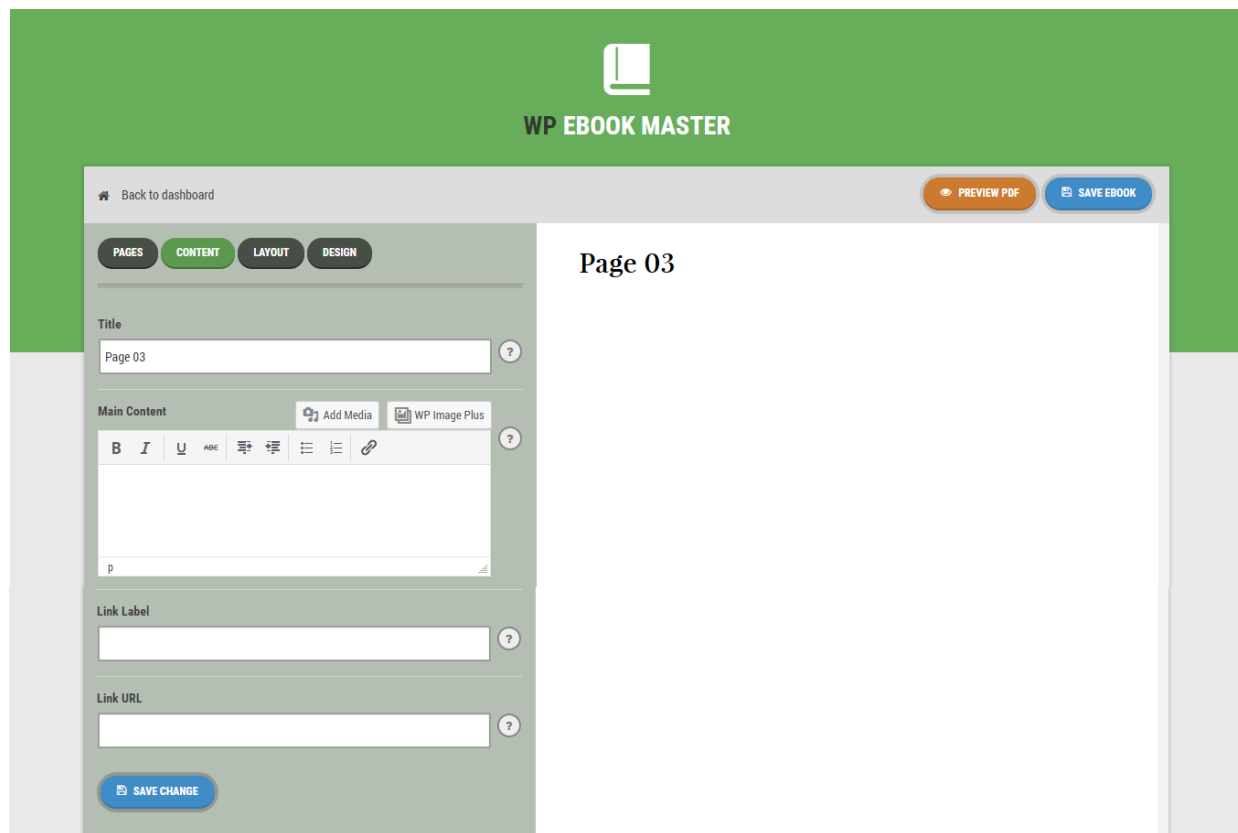

- **Title.** Enter the title of the new ebook page.
 - **Page Type.** Select the page type of the new ebook page. Note that this option is not available on the lite version and defaults to **Article**.
 - **Article**
 - **Call to Action**
6. Once a page type is selected, click the **Add Page** button then you will automatically be redirected to the **Contents** section to edit the contents of the page.

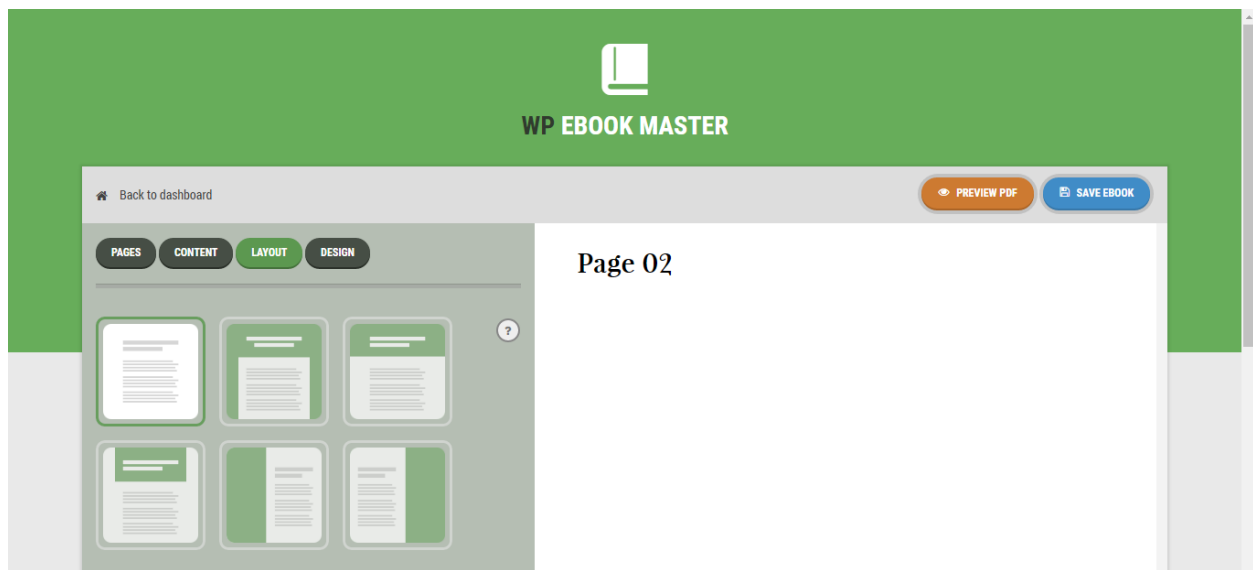

- **Title.** The title of the new page that has been recently added.
- **Author.** The name of the author of the page.
- **Summary.** Use the WYSIWYG editor to add the summary of the content of the new page.
- **Main Content.** Use the WYSIWYG editor to add the full content of the page.

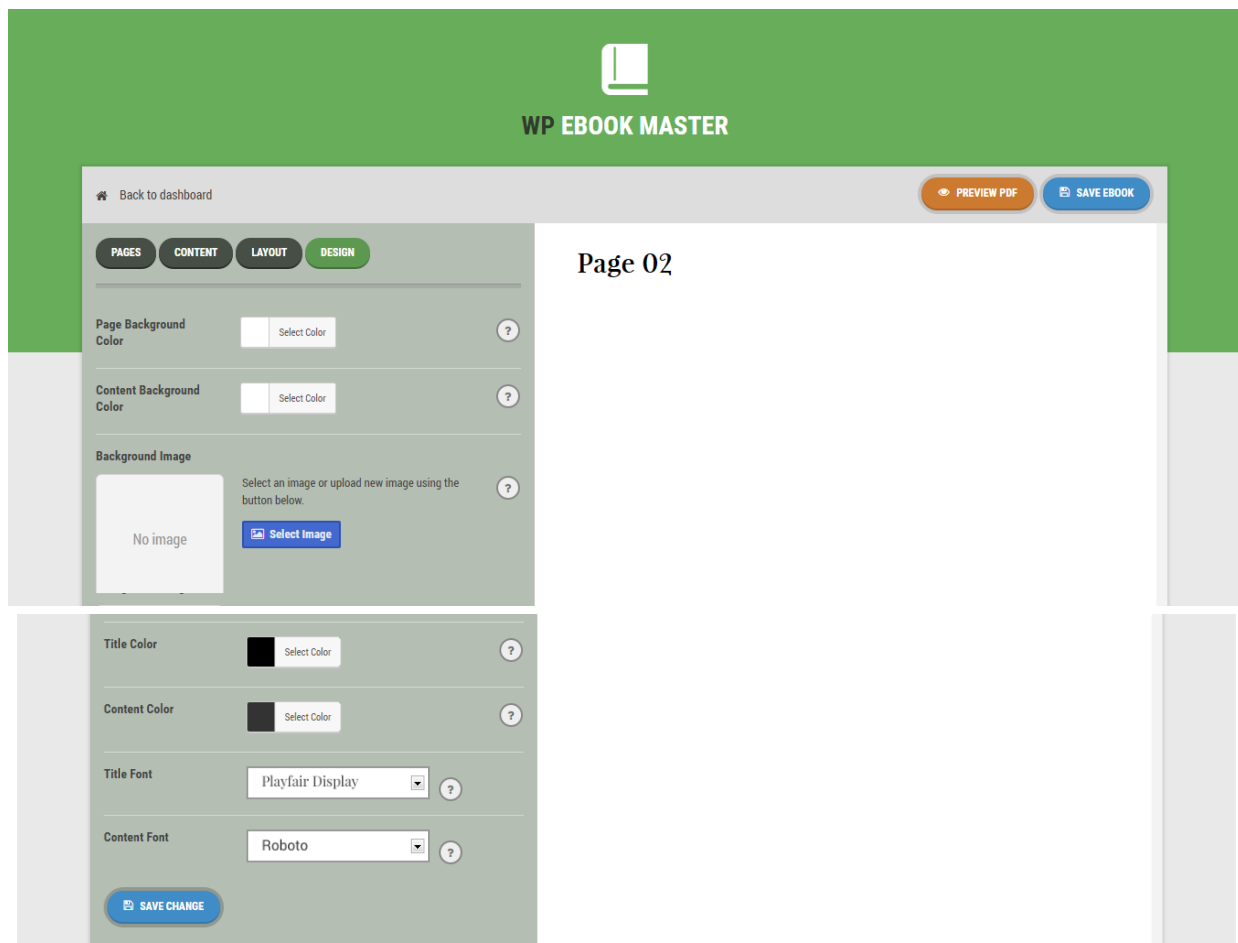

If **Call to Action** is selected as page type:

- **Title.** The title of the new page that has been recently added.
 - **Main Content.** Use the WYSIWYG editor to add the content of the call to action.
 - **Link Label.** The label of the button where the link is embedded.
 - **Link URL.** The complete URL of the site/page where you would like the user to be redirected to once the button is clicked.
7. Once you have reviewed and finalised the contents of the page, click **Save Change** button and proceed to the next section by clicking **Layout**.
8. The **Layout** section defines how the page that has just been created would look like. Note that this option is not available on the lite version of the plugin. Simply click one from the 6 predefined layouts you would like to use on the page. Then, click the **Save Change** button to apply.

- Next step would be to customize the design of the ebook page by clicking the **Design** menu item to access the design options.

- **Page Background Color.** Use the built-in color picker to define the ebook page's background color.
 - **Content Background Color.** Sets the background color of the ebook page's contents.
 - **Background Image.** Click the **Select Image** button to upload an image that you would like to use as the ebook page's background or use any of the images that were previously uploaded in the media library. Note that this option is not available on the lite version of the plugin.
 - **Title Color.** Defines the color of the ebook page's title.
 - **Content Color.** Determines the color of the texts of the ebook page's contents.
 - **Title Font.** Select from the dropdown the font you would like the title of the ebook page to be displayed in. Note that this option is not available on the lite version of the plugin.
 - **Content Font.** Select from the dropdown the font you would like the contents of the ebook page to be displayed in. Note that this option is not available on the lite version of the plugin.
10. Click the **Save Change** button to apply the new settings of the ebook page's design.
 11. To edit the pages that were previously created simply click the **Pages** menu item and click which page you would like to edit so the editor can load it.
 12. To delete an ebook page, go to the **Pages** section and click the page you would like to delete. Then click the x icon. You will be prompted to confirm the action as deleting an ebook page is irreversible and all data on that page will be lost permanently.
 13. To preview the ebook, click the **Preview PDF** button. To exit the ebook editor, simply click the link labeled **Back to dashboard**.

Managing Ebooks

1. To manage a list of existing ebooks you have created, navigate to the main page of the plugin by click the **WP Ebook Master** menu item from the left admin panel.
2. Once inside the **All Ebooks** page, click the hamburger icon on far right portion of each ebook title to open the options to manage the ebook.
3. Click the **Preview Ebook** button to open up the page where you can have a quick view of how the ebook looks like.
4. Click the **Edit Ebook** button to open the WP Ebook Master editor and make changes on the ebook.
5. Finally, click **Delete Ebook** to remove the ebook from the list. You will be prompted to confirm the action as this is irreversible. Once confirmed, all data will be lost permanently so proceed with caution.
